# OUR COMMITMENT TO YOU

Whether you're implementing a new or improving a current school feeding program, our superior-performing products and training resources are designed to make your programs run as smoothly as possible across all sites.

## BREAKFAST, SERVED SAFER.™

Temperature control is critical in keeping food and milk in the safe serving zone for your students. That is why each of our Insulated Bags feature an advanced insulation design to help maintain the temperature inside the bag.

### ANTIMICROBIAL & ODOR-FREE

Unlike other bags, our acclaimed Sterno® Seamless™ Liners are antimicrobial and prevent spills and liquids from seeping into the insulation foam and causing mold and odor.

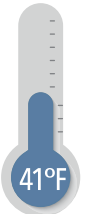

### REDUCE MILK WASTE

Advanced insulation design helps keep milk below 41°F preventing milk spoilage and reducing the amount of milk you need to toss away each day.

### BUILT TO LAST

A durable construction, tear-resistant vinyl liner and reinforced stitching provide **years of use** and create a worthy investment.

### KEEPS MILK & FOOD IN THE SAFE SERVING ZONE

2X thicker insulation foam than other bags to provide optimal temperature control for hot and cold food.
